Norman Attorneys Representing Clients Nationwide

We are an Oklahoma law firm, however our representation often involves regional, national and international transactions, arbitrations and cases. We serve local and multinational clients wherever their legal needs take us.

We are aggressive negotiators and litigators. Yet, we pride ourselves in providing a collegial, informal atmosphere for our clients and staff. We are lawyers, but we are also friends and family. Our family extends to our clients, many of whom have been served by the firm for generations. One of our clients, an electric utility, has been represented by our firm continuously since the 1920s.

Our ability to grow and prosper over the years, while maintaining longstanding relationships with clients, is the direct result of our philosophy of always placing our clients' needs first - preventing problems before they arise and providing creative solutions when required.
